#### Tools:

Webpack, Babel, NPM, Jest.

#### Concepts:

React rendering patterns, state management, responsive design, testing.

#### Version Control:

Git, GitHub.

### EDUCATION

#### SSC, Bishop Heber Higher Secondary School

2012 – 2017

94%

#### HSC, St Joseph's Higher Secondary School

2017 – 2019

76%

#### Bachelor's Degree in Computer Science, Bishop Heber College

2019 – 2022

76%

### PROFESSIONAL EXPERIENCE

#### Project : Green Thumb Industries (Front-End Developer), SyncHigh Technologies Private Limited

April 2023 – present

- Developed a web dashboard application for Green Thumb Industries, improving operational efficiency across dispensary functions.
- Created and optimized UI components in React, CSS, and JavaScript for modules such as Bar Code Scanner, Cash/Supply Expenses, and User Administration.
- Ensured a responsive design, providing a seamless experience across desktops, tablets, and mobile devices. Collaborated with backend developers to integrate RESTful APIs, enhancing data accuracy and functionality across the dashboard.

#### Project : Aditya Birla Home Loan (ABHL) Application (Front-End Developer)

October 2022 – March 2023

- Developed a user-friendly dashboard for Aditya Birla's Home Loan application, including modules for KYC details, PAN verification, Aadhaar verification, and application forms.
- Built responsive forms with React and JavaScript, ensuring data validation and seamless user experience across devices.
- Integrated API calls for document verification (PAN and Aadhaar) to streamline the loan application process.
- Collaborated with backend teams to ensure secure data handling and compliance with regulatory standards.

### PERSONAL INFORMATION

**Date of Birth** - 11/08/2001

**Language known** - English and Tamil

**Marital status** - Single
