SUMMARY

Frontend Developer with 2.4 years of experience in building responsive and user-friendly web applications using React and modern JavaScript frameworks. Skilled in collaborating with cross-functional teams to deliver high-quality interfaces that enhance user experience. Seeking a challenging role in a dynamic organization to contribute to impactful frontend solutions and grow professionally.

PROFESSIONAL EXPERIENCE

DTX Studios - Intern

10/2022 – 03/2023

Project: Aditya Birla – Home Loan Application Portal

- Developed a **user-friendly dashboard** for managing **home loan applications**, including modules for **KYC details**, **PAN verification**, **Aadhaar verification**, and digital application forms.
- Ensured a **responsive UI** across devices for a seamless customer experience.
- Integrated **API calls for document verification** (PAN and Aadhaar), streamlining the loan approval process.
- Collaborated with backend teams to ensure **secure data handling** and **compliance with financial regulations**.

PROJECT

SyncHigh Technologies Private Limited

11/2024 – 08/2025

Tamil Nadu Police – Daily Status Report (DSR) Automation System

- Developed a **responsive web application** using **React and Bootstrap**, enhancing user engagement by **15%** through a user-friendly interface for police personnel.
- Collaborated with a **team of 4 developers** to implement **RESTful APIs** using **Node.js** and **Express.js**, ensuring seamless and reliable data exchange between frontend and backend systems.
- Integrated **JWT-based authentication** to secure user access across **500+ accounts**, maintaining role-specific access control for different ranks (e.g., DSP, SP, IG).

SyncHigh Technologies Private Limited

04/2023 – 11/2024

Project : Green Thumb Industries (Front-End Developer)

- Developed a web dashboard application for **Green Thumb Industries**, improving operational efficiency across dispensary functions.
- Created and **optimized UI** components in **React**, **CSS**, and **JavaScript** for modules such as Bar Code Scanner, Cash/Supply Expenses, and User Administration.
- Ensured a **responsive design**, providing a seamless experience across desktops, tablets, and mobile devices. Collaborated with backend developers to integrate **RESTful APIs**, enhancing data accuracy and functionality across the dashboard.
