SUMMARY

As an innovative React JS Developer with 2 years of experience building scalable and responsive web applications, I am adept at collaborating with cross-functional teams to drive innovation and deliver software products that exceed client expectations. I am now seeking a challenging role in a dynamic organization where I can apply my skills and expertise to drive business growth and achieve professional success.

SKILLS

Skills:

HTML, CSS, JavaScript, React.js, Node.js, MongoDB, Express.js

Tools:

Webpack, Babel, NPM, Jest.

Version Control:

Git, GitHub.

Frontend Frameworks & Libraries:

Material-UI, Bootstrap, Ant Design.

Concepts:

React rendering patterns, state management, responsive design, testing.

PROFESSIONAL EXPERIENCE

Project: Green Thumb Industries (Front-End Developer), SyncHigh Technologies Private Limited

- Developed a web dashboard application for Green Thumb Industries, improving operational efficiency across dispensary functions.
- Created and optimized UI components in React, CSS, and JavaScript for modules such as Bar Code Scanner, Cash/Supply Expenses, and User Administration.
- Ensured a responsive design, providing a seamless experience across desktops, tablets, and mobile devices. Collaborated with backend developers to integrate RESTful APIs, enhancing data accuracy and functionality across the dashboard.

Project URL: https://dev.bi.gti-data.com ☑

March 2024 - present

Project: Aditya Birla Home Loan (ABHL) Application (Front-End Developer)

October 2023 – February 2024

- Developed a user-friendly dashboard for Aditya Birla's Home Loan application, including modules for KYC
- details, PAN verification, Aadhaar verification, and application forms.
- across devices.
- Integrated API calls for document verification (PAN and Aadhaar) to streamline the loan application process.
- Collaborated with backend teams to ensure secure data handling and compliance with regulatory standards.

E-Commerce Platform

April 2023 – September 2023

- Developed a full-stack e-commerce application using MongoDB,
 Express.js, React, and Node.js (MERN).
- Implemented user authentication, product management, cart functionality, and payment integration.
- Optimized performance with lazy loading, code splitting (Webpack), and caching techniques.
- Integrated **Redux Toolkit** for state management and React Query for efficient API handling.
- Ensured a **responsive UI** using **Material-UI** (**MUI**) and **Bootstrap** for an enhanced user experience.

Freelance India - Job Marketplace

- Built a freelance job portal where users can register, apply for jobs, and post job listings.
- Developed the **frontend using React and Ant Design (antd)** for a professional and intuitive interface.
- Integrated OTP-based authentication for profile updates and URLbased verification for account activation.
- Implemented admin dashboard with analytics, filters, and real-time user tracking using Google Analytics.
- Created a **dynamic search and filtering system** to refine job postings based on expertise and experience.
